

Frequently Asked Questions

- 1) If houses without basements contain frost footings, do the frost footings have to be removed?
No the frost footings do not have to be removed.

- 2) If a mobile or manufactured home has steel frame(s), do those steel frames have to be taken to the landfill?
All debris is considered to contain asbestos and needs to be burrito wrapped, including the steel frame(s).

- 3) Does concrete slabs like patios, driveways or sidewalks have to be removed?
No, these items are not included in the RACM Demolition and will not be reimbursed by FEMA. Only include concrete items that are in the footprint of the structure to be removed, for example, basement or slab foundations.
