# Notice of Lead-Based Paint guidelines

All target housing properties assisted with the community's program funds must comply with IDPH's Lead-Based Paint Housing Regulations. For target housing projects all painted surfaces that will be disturbed by the rehabilitation activity, whether tested or presumed to contain lead-based paint, must be repaired if deteriorated paint or lead-based paint hazards are present. All rehabilitation work that will impact lead based paint, whether tested or presumed to be lead-based paint must be performed in a manner consistent with the Renovation, Repair and Painting protocol. Contractors will be required to isolate work areas to protect occupants and their belongings and conduct final cleaning in work areas where lead-based paint was disturbed, gather lead dust wipe samples and maintain them according to the IDPH RRP protocol. It is expected that no relocation will be required utilizing the RRP protocol. If relocation is required, it will be at the contractor's expense.

Remember that the training you received in **LEAD-SAFE RRP** is important and that the best way to prepare for the lead dust sampling is to HEPA VAC- wet wash- HEPA VAC.

I also understand that if lead hazards are noted within these specifications that the contractor submitting this bid will not complete any work within this house unless the owner has been notified of the hazards and all work is completed in an isolated space as required by IDPH regulations. This is a mandatory requirement. The owner may not enter the work space until the Contractor has taken dust samples per the RRP protocol following each work item involving lead-based paint work.

Any citations, fines, or non-compliance issues are the responsibility of the firm completing lead work not the testing agency or qualified lab.

A STATE approved HEPA vacuum must be on site when working on all lead noted items.

I, \_\_\_\_\_ of \_\_\_\_\_ contracting company understand and will comply with all listed lead requirements. I further certify that any or all line items completed as identified lead surfaces will be completed by an individual trained and certified in LEAD SAFE RENOVATOR.
